

# QUICKSILVER SCIENTIFIC LIPOSOMAL NAD+GOLD- LIQUID NMN (Beta-Nicotinamide Mononucleotide)

- NAD+ is a coenzyme that is required for life and cell activity. Because NAD is not a molecule that can fully pass the intestinal barrier, it is more beneficial to provide it to the body in the form of its precursor, NMN (Nicotinamide Mononucleotide). NMN promotes skeletal muscle growth and regeneration, as well as glucose and energy production and insulin sensitivity. Many studies suggest that NMN promotes healthy aging by boosting NAD+ levels and anti-aging through enhancing sirtuin activity.
- Most NAD+ supplements use NR, and NR must first be converted to NMN before it can convert to NAD+. NAD+GOLD Liposomal Beta-Nicotinamide Mononucleotide and Betaine-containing Spray with Liposomal technology, provides NMN to body in the least amount of time with maximum efficiency.

- Anti-Aging Effect
- Prevents DNA Damage.
- Prevents Chronic Fatigue.
- Helps Strengthen the Immune System.
- Helps Increase Physical Endurance and Athletic Performance.
- Improve Liver Health and Detox Capacity.
- Improve Cognitive Functions and Reduce "Brain Fog".

Take 2 pumps once daily. Hold in mouth 30 seconds before swallowing. Take on an empty stomach, at least 10 minutes before meals.
